DOMENICO TOTARO

Chairman, Ente Parco Nazionale Appennino Lucano Val d'Agri

Domenico Totaro holds a BSc in Civil Engineering from the University of Bari and has been consultant in the field for several years.

He has worked both in the public and private sector. His main area of expertise consists in testing and planning in civil constructions: hydraulic works, civil, education, sport and health construction.

He is author of important studies and publications on land management and protection of the environment.

In 2008 he joined the *Ente Parco Nazionale Appennino Lucano* as special Commissioner and in 2012 he was appointed Chairman.

As Chairman of the *Ente Parco Nazionale Appennino Lucano* his main responsibility is the protection of the natural, historical, archaeological and cultural resources of the park and the promotion of sustainable tourism.
